DRUG TESTING & SUPPLEMENT WARNING- You are responsible

Drug testing performance enhancing substances at ICompete Natural events is conducted via WADA standard urine analysis at international labs. Over the past 3 years approx. 80% of our positive contest day tests have occurred because of banned ingredients in USA supplements taken prior or at the event. As a general rule, don't take any supplement 3 days prior to the competition. This will avoid an inadvertent positive test from a substance only banned "in competition" which is mostly the problem we see with pre-workouts supplements. When selected for drug testing please follow the official to the test area (located in another area of the venue). Let the official know if you are competing again soon, we will let you prepare and compete first

Compete in any number of divisions

With the successful development of ICN events by removing posing routines from the show format, we now have time available for competitors to compete in multiple divisions in your selected category up to a maximum of Eight (8) Divisions.

Please note: Please read and check the division's qualifications and category rules.
